

HPL Modular Wall Panels

**SINGLE SIDE
HPL PANELS' WALL**

**DOUBLE SIDE
HPL PANELS' WALL**

Description:

Transforma provides a modular wall panel system designed and manufactured for specific use in operation rooms and other areas in hospitals; the panels are manufactured with high precision using High Pressure Laminate (HPL) solid boards with an antimicrobial surface finish resistant to living organisms and chemical substances.

Dimensions	
Panel Width	Max. 1,300 mm
Panel Height	Max. 3,000 mm (Room height)
Panel Thickness	14 mm and 20 mm

Technical Data	
Panel Composition	Anti-Microbial colored/texture surface finish or Design print surface finish
	Solid High-Pressure Laminate (HPL) board
Surface finish options	Colored Anti-Microbial surface finish; according to standard colors chart
	Normal Colored surface finish; according to standard colors chart
	Design print finish; design to be selected with Transforma team
	Write-away surface finish
	Magnetic board option available
Fixture method	Screws on Galvanized Steel supporting structure
Fixture covering	Silicone gasket
Origin	Italy

Standards & Certification:

- In compliance with Directive 89/106/CEE "Construction Products" (CPD)
- CE Mark on Stratificato F1 print HPL products
- In compliance with EN 13823 (SBI Test)
- In compliance with ISO 11925-2 (Small flame test)
- Reaction to fire performance in accordance with standard EN 13501-1
- Product certified and in compliance with standard for "Low Chemical Emissions, UL 2818"
